

INTRODUCTION OF THE MARK OF THE BEAST

Many are expecting that the introduction of the Mark of the Beast will be sudden. By the push of the underworld, the New World Order, the Deep State, and their likes, it is a gradual process of gaining an inch at a time.

The backbone of strong opposing nations are being broken by the introduction of viral infection, followed by miscarried care delivery to effect maximum affliction, fear, death and economic damage. Effort is being made to dissuade care delivery from the path of victory, success or deliverance from the affliction. Continuous hold on the people will be used to generate new stringent laws and regulations to finally bind the people. Any revolution will be cleaned up by the penetrated armed and secret agencies. They were working while everybody slept and hid under the guise that it is conspiracy theory so as not to do anything.

The introduction of the Mark of the Beast will be in four stages:

1. VACCINATION

Microbes have to be introduced in the blood stream of all citizens of the world. The microbes or Quantum Dots are molecular level particles that are added in vaccines that are conductive and can be able to give back information of the various organs of the body and can be used to predict, regulate, monitor, modify, adjust, disable, afflict, and other potential functions that deals with blood and all organs including the brain. This is no theory. Research and study the science of Quantum Dots.

2. RFID CHIP OR GRAIN INSERTION

Very tiny electronic grain size transmitter is to follow the vaccination. This will also be mandatory as normal monetary currency will be dissuaded (discouraged) as carriers of germs and viruses and not secure. The media will be used to promote the advantages of the chip. The main opposing group to accepting the chip are the evangelical and born again Christians. These and similar groups will soon be defamed as hypocrites, deceivers, and heretic. They will be persecuted, disgraced, and destroyed. For a long time, private activities of prominent individuals of these groups are being recorded for the propaganda against them later. Most privacy of everybody have been compromised by the conglomerate of companies involved with communication. They have been storing and selling personal and private information, discussions and medical records; all against privacy laws. The incessant hiking and stealing of corporate computers and servers are largely internal work of moles in the systems.

3. GLOBALIZATION

Presently, there is fear of a global world war III. Because of the formidable accumulation of devastating arsenals and weapons of many nations, it is feared that no flesh will be saved from the looming, anticipated and menacing world war. The ownership of nuclear war heads is now not sufficient for

domination as better and more subtle arms are being discovered to disable and clean out humanity. The fear of total annihilation is leading to a United Nations strategy of one global government, religion, and economy. Religion, economy and political governments are the three areas that have been identified that cause division and strife between nations. These three areas are earmarked to be joined and synchronized under one world leadership, hence eliminating the potential for a global war and self annihilation of humanity. The target is to bring the entire world into this envelop as soon as possible.

4. MARK OF THE BEAST

With the formation of one world government and leadership, the censors, enumeration, and identification of all persons in the world for effective human and resource management is crucial. Hence everybody is going to have a unique number that identifies him. The identification numbers will be a combination of groups or segments of meaningful numbers. This will be remotely assigned through wireless emission to all RFID chips that will already have been installed in the hand or fore heads of all citizens of the world. Exceptions will be classified as deviates that will be eliminated from the world. They are not to be allowed to obtain, given, receive or exchange any resources including any form of transactions. Their whereabouts is to be reported. There will be small unit emergency drones and similar policing mechanisms to kill and eradicate all such deviates that will not receive the numbering system. Infra red sensors can detect warm blooded animals including human beings and they will be killed by these flying machines that can go through the woods, forest, sky, or in between buildings for a hunt down. There will be no hiding place for many. Many people will be killed. Do not fear or panic (2 Tim 1:7)

The introduction of the mark of the beast, implementation of one world government and the enthronement of one world leader or antichrist is imminent. The taking away (or rapture) of Christians will take place after these. How? Remember that statement of The Lord Jesus Christ:

“And except those days should be shortened, there should no flesh be saved: but for the elect's sake those days shall be shortened. Matt 24:22”

The elect is an old name or phrase for Christians. The terrible days will be shortened because they will be inside the tribulation. Download the full document "Christians To Go Through Tribulation" by the same author from www.midwestecho.com. Don't be deceived. The Devil does not want Christians to be prepared or to oppose hence the deceit that they will be taking away or rapture before the tribulation. it is false teaching. The above verse and many more in the Book of Revelation show that Christians will be here during part of the Great Tribulation (Rev 16:L6, 18:24, Daniel 7:21, Matthew 24:3,21, 24:21-22). And many, particularly those that did not prepare will be killed. Also download "Preparing For The Great Tribulation" from the same site. There are things to do and preparations to make. God be with you as you study and research on this important matter. Amen.
